

VIAMOTIF  
INTERNATIONAL  
NEO SAFARI CHAIR

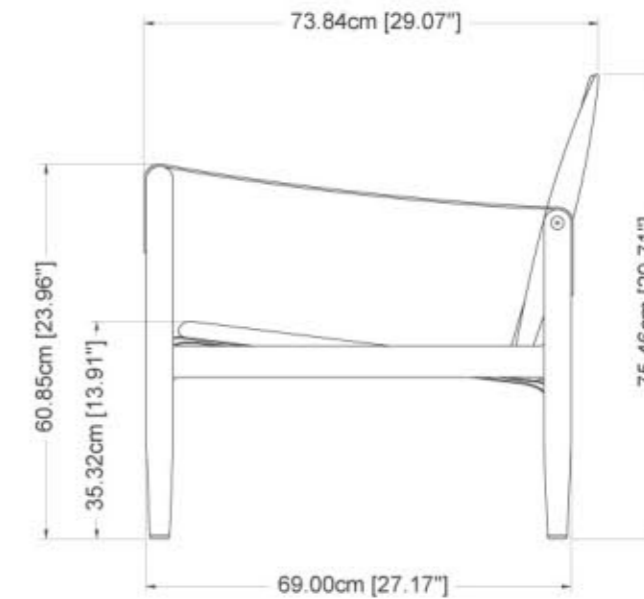

Via Motif International continues its 20 year tradition of designing and crafting stunning and innovative accessories for fine homes and luxury hotels around the world with the introduction of our Neo Safari Chair. This fresh concept in indoor/outdoor seating is our reinterpretation of the classic Danish design dating back to the 1930s. With tilting backrest for maximum comfort, our chair is perfect for lounge or poolside seating. Aluminum frames are available in a choice of three standard finishes, upholstered in exclusive textiles that are hand loomed at our company owned manufacturing facility. Custom weaves and finishes are available upon request.
